The original ImmiFlex® family:
1 months use, 3 months use and for kids off course!

ImmiFlex® contains Wellmune WGP® which is protected by more than 40 patents, and in which development, research and clinical trials more than 1.5 billion NOK (162 million euros) have been invested. ImmiFlex® with Wellmune WGP® beta glucans is one of the strongest beta glucan products on the market, with over 80% of Wellmune WGP® beta glucans.

ImmiFlex® is used daily by many people as part of a "health insurance" and is particularly effective for people during periods when risk of infection is high or during times of increased stress levels.

ImmiFlex COMPLETE

ONE A DAY

Healthy, Natural and Safe

ImmiFlex COMPLETE contains natural ingredients that are well tolerated and beta glucans that are also allergy-friendly, GMO-free, generally recognized as safe (Generally Recognized As Safe - GRAS by the US FDA) and approved as Novel Food by EU / EFSA. The capsule itself is also vegan.

ImmiFlex COMPLETE is a supplement for the immune system that combines vitamins, minerals and beta glucans for optimal results. ImmiFlex COMPLETE takes care of the front line defense and promotes a healthy and active lifestyle for the whole family. Research also shows that ImmiFlex COMPLETE can maintain a healthy immune system during periods of daily stress and therefore fits perfectly in a busy everyday life.

Ingredients: Beta 1,3/1,6 Glucan (Saccharomyces Cerevisiae), Hydroxypropyl Methyl Cellulose (Vegan Capsule Shell), Ascorbic Acid (Vitamin C), D-Alpha-Tocopheryl Succinate (Vitamin E), L-Selenomethionine, Zinc Oxide, Vitamin A Acetate, Cholecalsiferol (Vitamin D), Magnesium Stearate (Anti-Caking Agent) and Folic Acid.

What Are Beta Glucans?

Beta glucans are carbohydrates found in the cell walls of fungi, yeasts, molds and grains. These carbohydrates consist of long, branched chains of glucose molecules called *alpha* and *beta* glucans.

Where do you find Beta Glucans?

Several natural remedies such as aloe vera and Echinacea purpurea contains beta glucans. The same goes for cereals like oats and barley, that is to say, beta glucans are found in flour, grains and whole grains of these cereals. Immiflex COMPLETE contains beta yeast glucose (Saccharomyces cerevisiae), more specifically; beta-1,3 / 1,6 glucans. Here, the beta glucans must be concentrated and the cell walls broken down before it can give effect.

How Can Beta Glucans Help?

Dietary supplements with beta glucans are often combined with Vitamin C or Vitamin D, and Immiflex COMPLETE combines all the best vitamins for optimal health effect! Both Vitamin C and D are beneficial for the immune system. Vitamins C and D contributes to the normal functioning of the immune system.

FINALLY, IT'S HERE!

Your immune system is the body's natural defense system, which patrols and protects the body 24 hours a day, every day throughout life. It protects against the invasion of bacteria, viruses, parasites and fungi and when necessary it fights infections.

Immitec has for many years been known for the product ImmiFlex® that activates the innate immune system. After several inquiries from both doctors, therapists and the specialist trade, we have now chosen to extend the series with a more powerful immune product based on the latest science and taking care of the entire immune system in *just one capsule.*

Now you get Immiflex COMPLETE with the entire amount of *450 mg beta glucans* and several powerful vitamins and minerals adapted to an optimal immune system.

Vitamin E + Vitamin A + Vitamin C + Vitamin D + Saccharomyces Cerevisiae (Brewer's Yeast)
